GRIP. LIGHTNESS.

FLEXIBILITY. BREATHABILITY.

THE POWER OF GRIP.

THE NEW GRIP LATEX SERIES.

Special demands ask for unique solutions. With full focus on the goalkeepers and their different requirements on grip and durability, we have completely renewed our entire range of Reusch-exclusive palm foams. The German-made Reusch Grip latex builds the base for a total of 11 unique latex mixtures. All foams have been developed using unique compositions, additives and finishings that boost the performance of the product and the keeper.

This highly durable palm foam is perfectly suited for recreational goalkeeping on all types of pitch surfaces.

German-made palm foam that guarantees good grip and reliable durability thanks to a large proportion of high-quality natural latex.*

Great choice for hard ground and artificial grass thanks to its compressed latex with rough surface and high abrasion resistance.

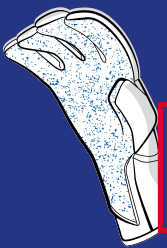

**DURABILITY
BOOST**

This very soft, high-volume latex offers great grip and outstanding cushioning against hard shots.*

**IMPACT
ABSORPTION
BOOST**

* LATEX MADE IN GERMANY

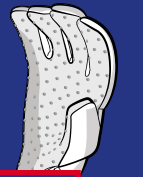

**ALL-WEATHER
& DURABILITY
BOOST**

The first-choice latex of Lloris and Szczęsny provides unmatched grip and high abrasion resistance for all weather conditions and pitch surfaces.*

**CONTROL
BOOST**

3D latex dots on the inner side of this high-grip palm foam prevent from any slipping of the hand and improve the tactility for maximized ball control.*

**FRICTION
BOOST**

Three-dimensional spikes on the surface of this professional match latex increase the friction between the glove and the ball for maximum grip and control.*

Trusted by Samir Handanovič and many other professional keepers, this exceptional match latex guarantees maximum grip and stickiness.*

**ADHESION
BOOST**

This match foam provides excellent grip in dry and especially wet weather and surface conditions thanks to its unique latex composition and our exclusive Hydrograin particles.*

**WET WEATHER
BOOST**

This high-quality latex is the perfect combination of durability and grip for professional performances on artificial grass.*

**DURABILITY
BOOST**

**GRIP
BOOST**

This premium match foam guarantees outstanding grip and reliable durability thanks to the addition of the largest possible amount of high-quality natural latex.*

CUTS:

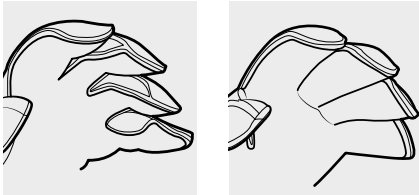

EVOLUTION
NEGATIVE CUT

The latex is rolled around the fingertips for a tight fit, best ball control and maximized contact area. An inner-seam construction in the lower finger parts offers a tight, soft, flexible and ergonomic fit.

EXPANSE CUT

Outer seams enlarge the palm surface of this flat cut and so increase the latex-to-ball contact area.

SLIM
EXPANSE CUT

This brand-new cut is exclusively used on the Duo styles. Negative stitching on the backhand offers a snug fit, regular cut on the palm side provides the needed room to maximize the effect of the Duo technology.

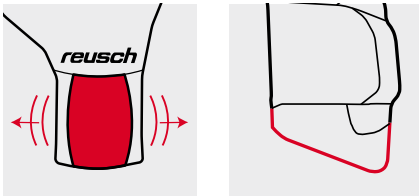

ROLL FINGER

The latex is seamlessly rolled around the fingers, providing the largest possible catching area.

CLOSURES:

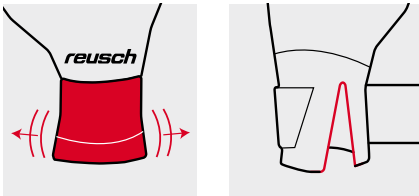

STEADY CUFF

In order to stabilize the wrist, provide the highest possible wearing comfort and create a smooth look, we extended the neoprene backhand all the way to the opening and merged it with a highly elastic textile on the inner wrist side.

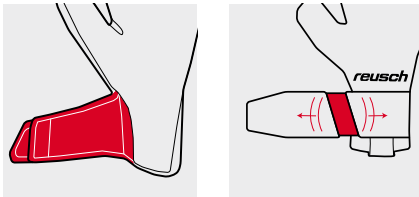

ELASTIC CUFF

This well-proven closure based on highly elastic textile guarantees great fit and additional wrist support.

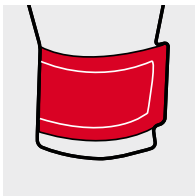

INTEGRATED STRAP

This light and flexible strap integrated in the glove body provides a quick and easy fastening and a stable hold around the wrist.

FULL STRAP

Our tried and tested fastening system all around the wrist for maximum stability and comfort.

ASYMMETRIC CUFF

Extended cuff on the outer wrist side offers added protection when scratching the pitch surface on low dives. Elastic opening with highly stretchable lycra insert guarantees an easy entrance.

OPEN CUFF

A vertical cut on the inner side of the cuff makes entering the glove as easy as never before.

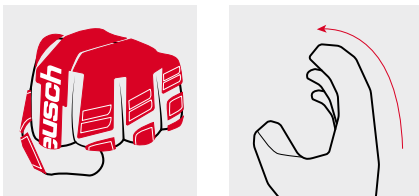

ELASTIC STRAP

Premium strap consisting of two pieces of latex and neoprene that are connected by a highly elastic textile insert. This special material-mix guarantees a highly precise and stable fastening.

FEATURES:

FREEGEL

Extremely light and durable punching zone made of silicone-like material, resulting in a very robust and at the same time highly flexible backhand.

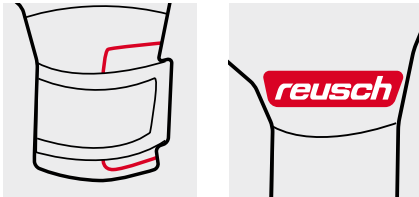

PRESHAPED CONSTRUCTION

The anatomical shape of the glove and the slightly spread fingers enhance the glove's wearing comfort and support a natural catching position.

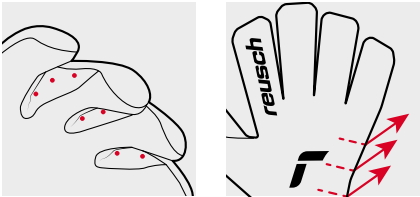

DURAGUARD

This latex patch offers extra abrasion resistance and durability in the most stressed zone of the palm.

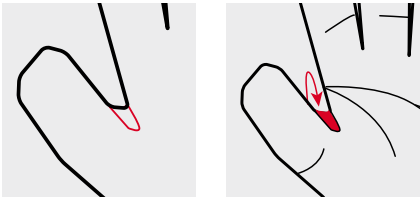

VENTILATION CHANNELS

Strategically placed small holes in the latex gussets guarantee constant ventilation and cool hands.

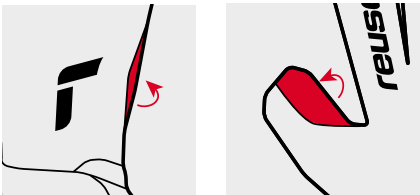

THUMBFLEX

A cut in the palm latex between thumb and index finger optimizes the flexibility of the thumb and the ergonomic shape of the glove.

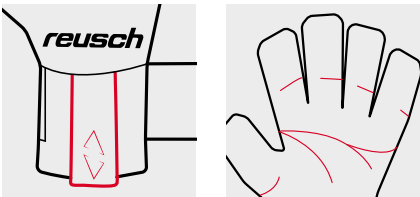

SIDE WRAP

A slightly wrapped construction of the palm latex on the outer side of the hand provides a snug fit and a bigger catching area.

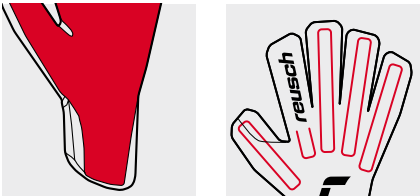

PULL LOOP

A slim textile loop on the inner side of the cuff ensures an easy entry into the glove.

EXTENDED GRIP ZONE

The expansion of the palm latex all the way to the entrance significantly enlarges the latex-to-ball contact zone for optimized grip.

AIRVENTSYSTEM

Highly breathable mesh material ensures optimum air circulation within the glove, providing maximum ventilation.

3D THUMB CROTCH

This rolled crotch construction between thumb and index finger avoids bothering seams and supports an ergonomic fit.

THUMB WRAP

The palm latex wraps around the thumb to enlarge the grip area and create an ergonomic shape.

PALM EMBOSSING

Embossments following the natural lines of the hand support the natural grasping movement.

FINGER SUPPORT

This reliable finger protection system based on five protection spines reduces the risk of hyperextension while keeping the glove soft and flexible.

ORTHO-TEC™
ADVANCED PROTECTION SYSTEM

Our premium finger protection system reduces the risk of finger injuries and offers great freedom of movement. Based on five individually removeable, lightweight and highly bendable protection spines, the Reusch exclusive Ortho-Tec™ system adapts to the natural movements of the fingers and blocks them before being pushed backwards into the injury zone. A super-stretchable neoprene opening on the backhand of the glove allows a quick and individual removal of each spine.

RELIABLE PROTECTION.
ERGONOMIC SHAPE.
UNRESTRICTED FLEXIBILITY.
FAST REMOVAL.

DID YOU

KNOW?

Each Ortho-Tec™ model comes with our handy EasyFix Tool that helps affixing the spines as quickly as possible.

- STEP 1:**
Place the EasyFix stick into the backhand opening and push it all the way to the fingertip.
- STEP 2:**
Insert the Ortho-Tec™ spine on top of the EasyFix stick and attach it to the velcro on the inside of the fingertip.
- STEP 3:**
Remove the EasyFix and get ready to dominate the game!

FUSION

The glove of the World Champion Hugo Lloris. We developed the Attrakt Fusion Guardian based on the needs of the French National Team captain. This high-end glove features the new Reusch Grip latex with Fusion technology, offering maximum grip in all weather conditions and very good durability. The Evolution Negative Cut provides a snug and tight fit for a super direct ball control. Latex on the backhand and the fingers offers the needed stability and control for punching.

REUSCH GRIP
FUSION

Based on the needs of Wojciech Szczesny, the Goalator is one of the topstyles in the 2021 Attrakt line. The glove features the new Reusch Grip latex with Fusion technology, offering maximum grip in all weather conditions and very good durability. The Freegel silicone application on the backhand makes the glove highly flexible without renouncing on the needed stability and control. A brand new cuff construction offers perfect stabilization of the wrist, provides the highest possible wearing comfort and creates a smooth and modern look. The elastic strap allows a very precise fastening.

PACKAGING	Blisterbag
MARKET LAUNCH	01.12.2020

REUSCH GRIP
DUO

As one of the favorite styles of our Pros, the new Duo combines groundbreaking technology with an innovative cut! 3D latex dots on the inner side of the highly grippy and tacky palm foam prevent from any slipping of the hand and boost the tactility for maximized ball control. Featuring a brand new cut with negative stitching on the backhand and an outer-seam construction on the palm side, this model provides a snug fit and at the same time the needed room to maximize the effect of the Duo technology. A new cuff construction offers perfect stabilization of the wrist, provides the highest possible wearing comfort and creates a smooth and modern look.

The Attrakt Silver is a great fitting goalkeeper glove. The Evolution Negative Cut adds a second-skin feel for best ball control. The latex backhand on mesh base feels light and at the same time supportive. The Reusch Grip Silver is a high-volume palm foam for improved grip and impact absorption. This brand new German-made latex offers very good grip properties and an extraordinary soft touch. By adding 30 percent of volume compared to the former S1, the foam provides noticeably more cushioning, stability and comfort.

This ultralight goalkeeper glove provides a second-skin fit and maximum flexibility. This fourth generation Pure Contact has a shorter cuff for a lighter sensation and an easier entrance. The Reusch Grip Silver is a high-volume and very soft palm foam for improved grip and impact absorption. By adding 30 percent of volume compared to the former S1, the foam provides noticeably more cushioning, stability and comfort. The FreeFlex backhand is made of neoprene with very small and thin silicone applications, to not impair the stretch and flexibility in any way.

SIZES	7,5 - 11 (+12)
PACKAGING	Softbag
MARKET LAUNCH	29.01.2021

This ultralight junior goalkeeper glove provides a second-skin fit and maximum flexibility. This fourth generation Pure Contact has a shorter cuff for a lighter sensation and an easier entrance. Thanks to the completely new Reusch Grip latex with Fusion technology the Pure Contact guarantees maximum grip in all weather conditions and very good durability. The FreeFlex backhand is made of breathable and highly flexible neoprene. The well-known Evolution Negative Cut with ventilation channels offers a snug fit for best ball control.

SIZES	4 - 7
PACKAGING	Softbag
MARKET LAUNCH	29.01.2021

Combining lightness, durability and grip for best performances on artificial grass. The Pure Contact Infinity Junior features our lightweight FreeFlex neoprene backhand, offering a second-skin fit. With its professional Reusch Grip Infinity latex, this Pure Contact provides the perfect combination of durability and grip. The all new German-made latex offers very good grip and most of all an exceptionally high level of abrasion resistance thanks to its high-density structure.

A fresh look for the Arrow. The new edition of this iconic Reusch glove now features exactly the same specifications as the model of Samir Handanović. The Pure Contact construction with neoprene FreeFlex backhand offers outstanding flexibility and a pure second-skin fit. The Arrow now features an elasticated full strap with inverted opening direction. The new Reusch Grip Gold X match latex guarantees best grip and stickiness in all weather conditions.

MATCH SITUATIONS. A REVISED RANGE OF FUNCTIONAL GOALKEEPER UNDERWEAR OFFERS MUST-HAVE
PADDED APPAREL PIECES AND HIGHLY FUNCTIONAL UNPADDED FIRST LAYERS.

MMS™

MOISTURE MANAGEMENT SYSTEM

marks a terminology within functional apparel from Reusch.
It's the common purpose of all MMS™ technologies. MMS™ is divided into following special fields:

MMS™ COOL:

is integrated in shirts that have to wick away much moisture from the inside to the outside. Its focus is to keep the body comfortably cool even in extreme conditions.

MMS™ COMPRESSION:

is used in shirts and shorts that fit tightly to the skin. The special run of the seams and the selection of appropriate material cause an effect of muscle compression, which prevents them from getting tired quickly.

MMS™ THERMO:

is mostly included in neoprene styles. Especially in winter or in wet conditions it keeps the body warm to avoid muscle strains.

REUSCH COMPRESSION SHIRT PADDED 51 13 700
